Dear Families,

Happy New Year! This month our units are Dinosaurs, Winter, Teacher's choice, and Groundhogs/Shadows. Conferences will be Wednesday, January 31th in the afternoon and Thursday, February 1st in the morning. Please note this is a change from the calendar. Look for a sign-up in the hall or on sign-up genius.

Just a reminder, in case of bad weather LPNS does not have their own announcement. If public schools are cancelled, LPNS is cancelled. When public schools are 2 hours late the morning session will start at 10 (no snack will be served) and the afternoon will run as scheduled.

Due to licensing requirements, if children bring water bottles or chap stick to school, they must remain zipped in their backpacks/lunch box. Water bottles are not necessary as water is always available at school.

Block Center

In the block center, children develop math concepts and motor skills. They also practice how to share, work with friends and make and follow plans.

Math

Math activities help develop children's problem-solving skills and give children hands-on experience in counting, comparing, patterning, and measuring.

Upcoming Events

Jan. 31 & Feb. 1

Conferences

In Search of...

- *gently used mittens for outside play (not knit, please)
- *gently used pairs of snow pants
