Dear Families,

This month the units are Feelings, The Five Senses (two weeks), and Healthy Bodies/Healthy Teeth. The teachers will finish the current rotation with Mrs. McIntosh in the Red Room, Mrs. Cohoon in the Yellow Room, and Mrs. Remus in the Blue Room.

Registrations are open for both current and new families for the 2019-2020 school year. Both morning and afternoon sessions have openings at this time, but afternoon is filling up very fast. It is possible to have two afternoon classes with enough registrations and a waiting list will be started when it has reached capacity.

Save the date for our Carnival/Open House Thursday, March 28<sup>th</sup>.

## Learning through Play

Block Center

In the block center, children develop math concepts and motor skills. They also learn how to share, work with friends and plan.

Math

Math activities help develop children's problem-solving skills and give children hands-on experience in counting, comparing, patterning, and measuring.
