Dear Families,

The Boo Ball was a hit again. This year we raised over \$800!!! Thank you to all the families that came and supported our school. A special thank you to Doug Smith from Green Mill for the generous donation of pizzas and Doug Robison from Epic DJ for donating his time and Photo booth. This year we will hopefully be repairing the playground fence and ordering a new listening center.

This month our units are Homes/Habitats, Families, Thanksgiving, and Colors and Shapes. In December our units will be Bears, Gingerbread, and Celebrations.

Just a reminder if your child is sick, please keep them home until they are fever or diarrhea/vomiting free for 24 hours without the use of medication. Please let your child's teacher know if they will be out. You may text your teacher or call the office at 525-1967.

In the morning we will be going outside everyday unless it is too wet or the temperature is -10 or lower. In the afternoon we will meet outside every Tuesday. Please dress appropriately.

Learning through Play

Large Motor- When playing with large motor toys children develop strength, coordination, and a strong, healthy body. Children love to climb, run, and play with friends. They also release extra energy and stress. Children develop large muscles first. Without decent large muscle ability it can be hard for them to move onto developing fine motor skills.

Upcoming Events

November 23

No School Happy Thanksgiving

December 6

PJ and teddy bear day

December 20/21

Last Day before Christmas
See you January 9th
